

Our Guarantee

Buy with confidence knowing PolyFoam Playground Pads are backed by our 8 Year Warranty with a 2-3 turf cycle life expectancy. We warrant against, cracking, shattering, or deteriorating under normal and proper use, and that the panels will not compress by more than fifteen percent as long as they are not subjected to stress loads in excess of those that ordinarily occur during use for play-ground performance.

Serious Protection for a Not-So-Serious Audience

The PolyFoam Advantage

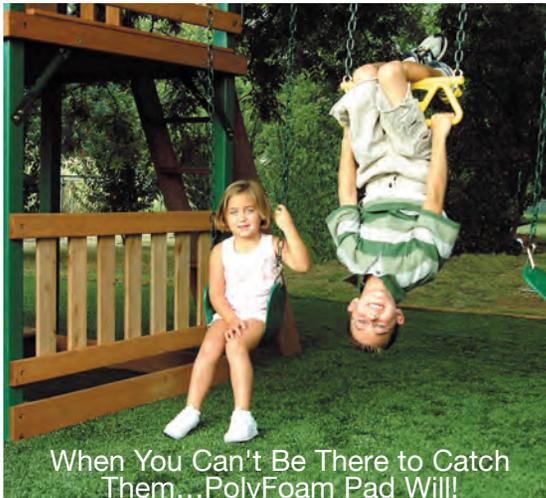

Greener. PolyFoam Playground Pad is made from 100% recycled, non-contaminated post industrial cross link closed-cell polyethylene foam. This environmentally friendly safety and drainage pad is 100% recyclable.

Easier and More Economical. Depending on local soil conditions, PolyFoam Playground pad can be used as a partial or total replacement of crushed stone beneath turf. This saves you time and money, while making installation considerably faster than standard stone surfaces. PolyFoam pad has the best cost/benefit ratio of any drainage/shock attenuation pad on the market today.

Drier. Your children can get many more hours & days of benefit from your playground because of how efficiently the PolyFoam pad drains water. Many times, your kids can be right back out playing within 15-20 minutes after a rainfall. PolyFoam pad will drain over 36* gallons per square foot vertically and up to 7.25* gallons per hour horizontally. The pad is ideal for use beneath both commercial and residential turf playground systems.

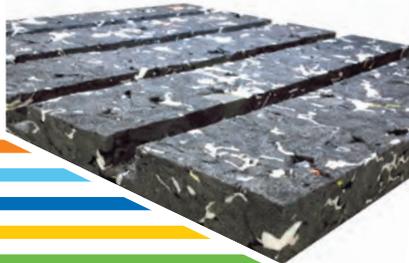

Healthier. The product is completely free of rubber and is also free of lead and other heavy metals. PolyFoam recycled polyethylene foam pad is non-microbial, which makes it resistant to bacterial and fungus growth.

When You Can't Be There to Catch Them...PolyFoam Pad Will!

Safer. The PolyFoam Playground pad is highly elastic and retains its great shock absorption characteristics for many years. It will provide your playground years of consistent safe 1292-04 HIC and GMAX Ratings.* Because most of your safety comes from the pad underneath the turf rather than infill, you do not have to worry as much about infill maintenance.

Machined Drain Channels

Available Configurations

	1 1/8" Thick	1 1/2" Thick	2 1/8" Thick
Rectangular Panels	x	x	x
Puzzle Cut Panels	x	x	x
Panels with Drain Channels	x	x	x

All panels are 4' x 6'
